

## Erratum 1

Saks, L., McGraw, K. J. & Hőrak, P. (2003) How feather colour reflects its carotenoid content. *Functional Ecology* **17**, 555–561.

Equation 2 (p. 557) in Saks *et al.* (2003) describing the calculation of chroma was erroneously presented. The value of chroma was calculated according to Endler (1990) and the correct presentation of this calculation should be as follows:

$$\text{Chroma} = \sqrt{(R - G)^2 + (Y - B)^2} \quad \text{eqn 2}$$

where B = (Qb/Qt), G = (Qg/Qt), Y = (Qy/Qt), R = (Qr/Qt).

Unfortunately, the erroneous version of this equation has also been reprinted in Montgomerie (2006).

## References

- Endler, J.A. (1990) On the measurement and classification of colour in studies of animal colour patterns. *Biological Journal of the Linnean Society* **41**, 315–352.

## Erratum 2

Scarff, F. R. & Westoby, M. (2006) Leaf litter flammability in some semi-arid Australian woodlands. *Functional Ecology* **20**, 745–752.

The authors of Scarff & Westoby (2006) have found typographical errors in three mathematical expressions, as follows:

1. The viscosity of oxygen for eqn 2 (p. 747) should read:  $4.43 \times 10^{-5}$  Pa s.
2. X-axis units for Fig. 2a should read:  $\text{m}^2 \text{Pa}^{-1} \text{s}^{-1} \times 10^{-3}$
3. The equation for packing (bottom of p. 748) should read: packing =  $0.163 \text{ size}^{-0.4949}$

## Erratum 3

Husak, J. F. (2006) Does survival depend on how fast you *can* run or how fast you *do* run? *Functional Ecology* **20**, 1080–1086.

The sentence starting on line 17 of paragraph one of the Materials and methods (p. 1081) in Husak (2006) should read as follows:

‘I examined survival for 60 adult and yearling lizards (9 yearling females, 13 yearling males, 18 females  $\geq 2$  yrs old, and 20 males  $\geq 2$  yrs old).’
