

# Bowling Green State University student evaluations summary for instructor Zhonggai Li

Zhonggai taught five semesters at Bowling Green State University (BGSU) from Spring 2003 to Spring 2005. In total, nine sessions were taught by Zhonggai, they included one Math 120 (College Algebra), six Math 115 (introductory to statistics in traditional style), and two Math 115 (introductory to statistics in in-class activity based style). For your reference, Zhonggai summarized the average student evaluation scores for each session he taught into the bar graph in the end of this page. The graph shows that Zhonggai was getting better evaluations as he got more experienced. The next page includes some “good words” from student evaluations for every session taught by Zhonggai in time order. These quotes represent student feelings and offer impressions about classes taught by Zhonggai.
